CHAIRMEN INTERVIEWED.

Just What Both Parties Are Nov

New York, Nov. 4.- The World to morrow will say that during the past week it has been in communication with the chairmen of the Democratic and Republican county committees throughout the state. It will print a table, giving a resume of the claims made by both parties of the expected pluralities of Hill and Morton, which indicate that according to the views taken by the chairmen of the various Democratic county committees, David B. Hill will win by 21.835 plurality, while the chairmen of the Republican county committees having charge of their party's canvass in the sixty counties comprising the state, claim that Levi P. Morton is to be the next governor. They figure that he will have 55.025 plurality. The World says:

Russian Thistle.

Washington, Nov. 4.—The tut grass, or cocoa, is proving to be almost as much of an infliction in the south as is the Russian thistle to the northwest. For that reason, the agricultural department will soon 'ssue a special bulletin, urging a general campaign against this grass before it gets too firm a hold. This plant is not a grass, as its common name and its appearance indicate, but a sedge. It has many local names in the different regions in which it has been introduced. The species is of sub-tropical origin and is said to have reached the United States first at New Grieans among garden plants brought from Cuba. It now extends from Texas to southern lillinots, and in the coast region to Florida and New Jersey, being most abundant in sandy solls.

The plan of campaign to extirpate nut grass is simply to prevent it maturing seed above ground. Nearly everybody thinks the nuisance reproduces itself from the aut alone, whereas it propagates a thousand times more from the seed. Hence, to effectually and quickly destroy nut grass on any land infested with it, the soil should be frequently stirred during the growth period of summer so as to stimulate each nut tuber and seed to sprout. The best time for fighting it is between mid-summer and frost time.

OUT OF THE ORDINARY.

That Will Prove of Great Interest Japan.

Fiorida. It appears that Florida has a lew requiring all express companies doing business in towns of more than 15,000 inhabitants in the state to pay an annual tax of \$200. Osborne, as agent at Jacksonville, Fla., of the Southern Express company, refused to pay this tax. He was arrested and required to give bond for his appearance before a state criminal court, which he refused to do, whereupon he was arrested and imprisoned. He then made application to the circuit court for release on a writ of habeas corpus, but the writ was denied and the arrest and detention adjudged to be legal. The state supreme court affirmed this decision. Osborne now appeals to the supreme court of the United States upon the fact that the law under which the arrest was made is unconstitutional and void, because it is an effort to regulate commerce among the several states. The decision, when rendered, is expected to deal with this question in a general way and will be more than of local importance.

Annual Conference of the Order Drawing Near, and Much Work Is Being Done.

b. Hill will win by 21.835 plurality, while the chairmen of the Republican county committees having charge of their party's canvass in the sixty counties comprising the state, claim that Levi P. Morion is to be the next governor. They figure that he will have 55.025 plurality. The World says:

"In most cases, the representatives of both committees agree as to their county going one way or the other, although of course their figures varied. The counties where the distinctly rival faims were made are as follows:

Columbia claimed for Hill by 50 plurality and by 300 for Morton.

Eric claimed by 1.300 for Hill and for Morton by 500.

Mings claimed for Hill by 10,000 and for Morton by 700.

Niagara claimed for Hill by 10,000 and for Morton by 100.

Niagara claimed for Hill by 500 and for Morton by 100.

Queens claimed for Hill by 1,500 for Morton by 100.

According to the Democratic estimates Morton, it is conceded, will carry the state outside of New York county by about 33.175.

The Republicans claim Morton's polarality shove Harlem bridge will be about \$5,500. In other words if Hill is to be the next governor he will have carry New York county by about 35,170.

London, Nov. 4 .- A dispatch to th Pimes from Tien Tsin says that Fung Wang Ching was burned by the Chinese. The defense of the road to Moukden has collapsed. General Sung, with the remnant of his army, is in the Mathienlan pass, between Fung Wang Ching and Liaoyny. Winter has set in and snow has fallen in Manchuria. The Japanese cleverly effected a land-ng at Pitzwo (Kin Chow), while making a demonstration against the op-posite coast of Shan Tung. They cut the telegraph wires, thus preventing the news from reaching the Chinese ad-miral. A Chinese fleet, consisting of fourteen warships and a torpedo flouriteen warships and a torpedo flotilla, afterwards started to attack the Japanesse, but was re-called. It is believed the government is reserving the fleet for more important service. Prince Kung, the emperor's uncle, who was recently appointed president of the Tsun Li Yamen and chief of the admiralty, has now been appointed dic-tator, indicating a further centralization

of authority. The Japanese entered Fung Wang Ching on October 31.

Hinckley Fire.

St. Paul, Minn., Nov. 4 -- A remarkable St. Paul, Minn., Nov. 4.—A remarkable case of identification of one of the unknown victims of the Hinckley fire was reported today.

A son of an old man named Goodsell, of Butternut Lake, Wis., was among those who were believed to have been in the neighborhood of Hinckley at the tit of the fire. He came up from his house several days ago, determined to find his missing son. At Hinckley he

secured help and disinterred all the bodies of the unknown men buried there without inding any that seemed like his son. Going further north, near Skuni lake, he caused some bodies to be unearthed, the fourth one proving to be that of a man too badly burned for identification and nude except the upper portion of one sock on which was found his son's laundry mark. The old man, with a coffin carrying his son's remains, went back home today.

affair, the so-called faction of the Democratic party having it all their own way, neither Republicans nor conservative Democrats nominating any candidates. The result was that four prominent reformers placed themselves as candidates for governor. These are James G. Evands, M. R. Ellerbe, General Sampson Pope and W. D. Avands. Evands was chosen at the reform primary. The constitutional convention scheme was opposed by many of the reformers. Pope was supported by many reformers, conservatives and Republicans. Lexington, Ky., Nov. 4.—A letter written by Mrs. Kate G. Ernest, of Stockton, Cal., has been received by Dr. C. E. Mooney, of Lexington, announcing that George Washington Johnson, a niephew of Colonel Richard Johnson, candidate for vice-president in 1850, has mysteriously disappeared from her house where he had lodged several weeks, and had not been heard from. He had plenty of money, said he was worth \$250,000; that he was looking after the interests of the Northern Pacific railway, and that he had a large stock farm in Scott county Ky. Dr. Mooney does not know the man, but is looking up his history.

PARKHURST IN POLITICS,

Predicts That God Will Wreak Ven

New York, Nov. 4.—Dr. Charles H. Park-hurst today departed from his late custom of refraining from political discussion in his Sunday sermons and launched into a denunciatory invection against Tammany hall. The doctor said that unless the condition of affairs in New York was speedily changed God would wreak his vengeance upon the city as he did on Sodom and Gomorrah.

WOMAN'S CHRISTIAN ASSOCIATION. Chicago, Nov. 4.—The eleventh annual conference of the Young Woman's Christian association, which has been in progress at Evanston since last Friday, closed today. Two services were held and this evening Rev. Frank M. Bristol gave a short talk on the "Relation of the Association to the Church."

The delegates were also addressed by Mrs. William Boyd, of Evanston. This was followed with a farewell Ing. Service.

Washington, Nov. 4.—Acting Secretary Doe has remitted the sentence imposed by court martial on Bert O. Pond, late private company A. Fourth United States infantry, with the stinging endorsement that "This action was in flagrant disregard of principles of justice which control court martials."

The action referred to was the refusal of the court to sustain the prisoner's challenge of a member of the company who had been the judge advocate of a court to which the charges had been originally referred for trial, and who had, as such, interviewed witnesses and formed an opinion.

Washington, Nov. 4.—Secretary Gresham continues to improve, although he still suffers from a disagreeable cold. His physician advised him against going to Chicago to vote on Tuesday, saying the trip would be dangerous. It is not likely, therefore, that the secretary will make the trip.

NEW BASE BALL ASSOCIATION,

Buckenberger's retirement from all connection with the scheme when he received
an offer to manage a league club proves
this beyond any doubt, according to Mr.

Burning of a Building in Hartford Hartford, Conn., Nov. 4.—The Neal, Goff and Inglis building, 428 to 432 Main street, was burned tonight with a total street, was burned tonight with a total loss of about 3130,000, partially covered by insurance.

At 7:30, the flames were seen bursting through the first floor at the front of the store and soon the entire front of the large five-story brick building was enveloped in flames. A general alarm brought all the apparatus, and the flames were soon beaten back into the

Interior. Many of the guests of G. H. Miner's boarding house, at 4E Main street, had a narrow escape. Several of the twenty-five boarders were aged persons, and it is feared some of them did not escape. An aged couple were seen calling for help at a window, but soon disappeared. One old man fell on the way down stairs on the third floor and was not seen to rise. Francis Crum seized his sleeping child and rushed down the stairs barely in time followed by his wife. It will not be known until morning whether any lives were lost.

The origin of the fire was unknown. At 7:20 Fred Groesbeck, a clerk in the furnishing store, entered the building and lighted the gas. Neither he nor the policeman who had just made his rounds found any signs of a fire, but it is thought by some that he dropped a match. The bursting out of the heavy glass windows of the store gave rise to a theory of explosion of gas meter or oil barrel.

Kansas City, Mo. Nov. 4—It would seem that no matter which way Judge Foster may decide in the Santa Fe case at Topela, the old board of directors will be re-elected. The decision will be delivered in Topeka at 9 o'clock tomorrow, and the adjourned meeting is set for 1.30 p. m. Supporters of the old board of directors say that no matter what the decision may be, the victory will be theirs. Under the court's ruling on the question of jurisdiction, the injunction held only in regard to the vote of Kansas stockholders. It amounts, all told, to 315 shares. Had the committee out the total told, to 315 shares. Had the committee plan been allowed in respect to these, the protective committee could not have elected a man unless there is something in Monday's decision wholly unexpected. Even if it should be in favor of the protective committee and the cimulative plan of voting allowed, the "Protectives" will not be able to elect a director.

"Boston, Oct. 31, 184.—I have received the copy of the resolutions adopted by the students of Yale university and forwarded by you. May I beg you to express for me the deepest feeling with which I accept them. No honor which has been done to my father's memory has touched me more. The relations of our family with your university are of old standing. My father's father was a son of Yale and the kindness of the university has not stopped short of three generations.
